Prince Jonah Kalanianaole, betier

known here as "Cupid," is well recog-

nized as a man who likes to ear but

prefers to fight. "Cupid" is making a tour of the world, and the popular young Hawaiian is having pienty to car and also plenty to fight. At least

strive in regard to his complexion, and

to call him a "colored" person means a scrap, as the records of the Police

Court here will show. While on his trip

In Montreal, Canada, Cupid stayed

and said loudly that he couldn't see, why "colored" persons were permitted

Fr. Jockey West has bought Bill Gor-bill. With the overbearing swagger, characteristic of the would-be German duellist, one of the party said in brok-en. English to the works and in broken English to the waiter to put out that "black man," who should not be allowed in the same room as We, Us & Co. In Switzerland all waiters speak English, and the man tried to explain who the "black man" was, but, before he could do so, the prince was on his feet and had pulled the nose of the speaker—Count von Furstenheim—

who the "black man" was, but, before he could do so, the prince was on his feet and had pulled the nose of the speaker—Count von Furstenheim—turned the noble gentleman around and kicked him.

Here appears Cupid's lack of knowledge in regard to European ethquette. He should have known that he would receive a "cartel" and acted accordingly. White finishing his beer two gentlemen appeared as bearers of the cartel," but none speke English very plainly, and in the Hawaiian language they were probably not versed at all. "What is IT" said Cupid, sweetly, who had put his bow and arrows and wings aside for the time.

"Des vas a challenge to fight ze duello mit Graf von Furstenheim."

"D— him." said the prince.

Then, according to ciquette, the hearers of the cartel auggested to Cupid that he must be "one politrom, ze toward and— well, they didn't get any further because with an uppercut from his left he landed the speaker on the floor, and with a sight hand under hit the other cartes beaver disapplated, and then he was in the dear and Criterion, in Honolulu) knocked the other than make a job of it has been as few waters and take the standard the party drawn heades a few waters and take the standard of the three men of the party drawn heades a few waters and take him and a fine make a fine of 200 marks (Higo), which he fits and now he find must be fire a make who had a market fight and the fire and a consult of the standard as word of finglish, and a market fight, which he fits and now he find must be fire a make who had a market fight and the fire and a consult of the standard as word of finglish, and a fire and a fire and a finglish and a fire and a fire and a finglish and a fire and
